MONEY, STOCKS AND GRAIN

Speculation in Wall Street Was Bullish Saturday and Closed Steady.

World's Fair Business Giving Traders Confidence-At Indianapelis Better Business and Higher Prices Are Reported.

THE BOND MARKET.

Bailway Issues Holding Firm, with Sales of \$979,000 for the Short Day. At New York, Saturday, money on call

was easy at 4 per cent. Prime mercantile paper, 6@7 per cent. Sterling exchange was dull, with actual

business in bankers' bills at \$4.864 @4.864 for sixty days, and \$4.87% @4.88 for demand. The total sales of stocks were 122,787 shares, including the following: Burlington & Quincy, 4,900; Chicago Gas, 3,400; Distilling, 8,200; Erie, 3,200; Lake Shore, 5,600; Manhattan, 3,700; Missouri Pacific, 10,000; National Lead, 6,900; National Cordage, 10,500; New England, 6,900; Reading.

3,200; St. Paul, 6,700; Sngar, 11,000. The temper of speculation was prononneed bullish Saturday morning, and the Vanderbilt, Gould and granger shares were taken freely by houses that usually transact business for leading capitalists identified with those properties. Prices advanced 4 to 24 per cent., Lake Shore leading with a rise from 1824 to 1344. This stock was favorably affected by reports that the directors' meeting early in the month of May will disclose a plan for the refunding of the high rate interestnear at hand is also inducing purchases by capitalists and officials of ratiroads who have the best means of judging of the increase in earnings from that source. The Vanderbilts, as well as the Gould people, loss in the bank reserves and the circulation of reports that the steamers sailing for Europe on Tuesday next will take out \$3,500,000 gold. Cleveland, Cincinnati, Chicago & St. Louis fell from 523s to 504 and Lake Shore from 18442 to 133, but the general list yielded only 4 to 1 per cent., and the market closed steady in tone at the reaction. While the bank statement was disappointing, its influence upon the market was counteracted by the knowledge that the banks are better off than the statement indicates for the reason that the influx of currency was heavy toward the close, and that it did not figure fully in the exhibit. The exports of gold have far less influence than of late, the world's fair being relied on to bring; about a material change in the balance of trade between

this country and Europe. The principal sellers of stocks are the room traders. The buyers are those who know what the railroad and industrial corporations are doing, and who have practically unlimited means at their disposal. The sales for the two hours reacned 122,787 shares, of which 102,-507 were listed and 20,180 unlisted stocks. Railway bonds were firm. The sales were 979,000. Readings were dull and irregular. Closing quotations were:

Four per cent. reg. 313 | Louis. & Nash...... 7458 | Four per ct. coup..113 | L. & New Albany. 22 12 | Pacific 6's of '95.105 | Missouri Pacific.... 53 12 | Adams Express... 155 | Northern Pacific... 17 American Expr'ss. 11619 Northwest'rn pref. 142 

Bar Silver-At New York, 82%c per ounce; at London, 38d. The New York weekly bank statement shows the following changes: 76,400 Deposits, decrease...... 631,500 Circulation, increase..... The banks now hold \$9,212,950 in excess

of the requirements of the 25 per cent. rule. LOCAL GRAIN AND PRODUCE. The Trade of the Week Very Satisfactory with

Few Fluctuations in Values.

In most lines trade of the week, closing

Saturday, was reported very satisfactory but few important changes values. Coffees are 120 low. than a week ago, and easy at the present quotations, while sugars are %c higher than a week ago. Eggs are 120 higher and firm, poultry 'se lower and weak at that quotation, and some lines of vegetables are lower. Hog products are lower. Two or three articles in the drug line are higher, but the general tendency

is to steady prices. On Saturday last Indianapolis elevators contained 147,993 bushels of wheat, against 11,143 bushels corresponding date, 1892; 144.980 bushels of corp, against 29,302 last Pear: 20,000 bushels of oats against 78,691 bushels last year: 1,500 bushels of rye, against 1,080 April 8, 1:92.

The grain market is more active than a week ago. Wheat is le higher most grades of corn 'ec higher, and oats about the same. The bidding on 'Change has been more spirited the fast few days. Track bids with the cless of the week ruled as follows: Wheat-No. 2 red, 6642c; No. 3 red, 63c; No. 4 red. 57c; rejected, 50c; unmerchantable, 45@50c. Wagon wheat, 65c. ANOTHER BOOM IN WHEAT

May at One Time, Saturday, Showed a Gain of Nearly 2 1-8c Over Friday.

Dry Weather in the West Seized on by the Bull Clique to Produce a Scare, and, Assisted by Buying, Accomplished That End.

TRADING AT CHICAGO.

Corn Advanced with Wheat, but Provisions Weakened Some.

CHICAGO. April 8.-A boom in May wheat was the notable feature on 'Change to-day, though trading in July was decidedly larger than in the nearby option. May at one time showed a gain of nearly 2 so over last night's prices. It was up 15 c at the close, while July had an advance of only 42c. Dry weather was the main influence. Business was fairly good, but only active for short periods. The bull cliques in wheat and provisions made themselves felt in each of those specialties. Compared with last night, corn is 180 higher and provisions range irregularly higher to a limited extent. While no rain was in sight in Kansas, it was reported freezing in Dakota and Nebraska. It was rumored that the Missouri State crop report had been made public, making the wheat conditions 83 and 84 per cent., an increase in the average. This, at the time caused a reaction from the top prices reached, but with all a firm feeling existing. The receipts for the last week were considerably larger-about 800,000 bushels more-and the export clearings were smaller, so that no large decrease in the visible supply is expected-perhaps 500,000 bushels.

Corn was moderately active, but kept within 4c range. The general tone was easier, with the exception of a short spell at the opening, when a fair degree of strength was displayed. the action of wheat starting a few local short operators to covering. This demand scon became satisfied and a downward tendency followed, offerings becoming more free, re-

There was a fair trading in oats, the greater part being in the changing from near to distant months. September was bought and June sold at 34 @3%c difference. Prices had a 4c range and the close was at a net gain of 4c.

Business in hog products was lighter than for several days past. Offerings of all descriptions were moderate, and the inoniry from all sources was only fair. The market opened stronger, owing to the advance in the prices of hogs, but the prospeot of a larger supply during the coming week tended to an easier feeling, and lower prices were accepted. At inside figures the demand improved somewhat, mainly to provide for outstanding contracts, and prices rallied again. The market closed rather firm at about outside figures.

Estimated receipts for Monday are: Wheat 260 cars; corn, 170 cars; oats, 145 cars; hoge, 18,000. The leading futures

Williams, Maria Greathouse. Commence on a Small Scale. Farmers' Guide.

It is better for the farmer in moderate circumstances to commence with the improved breeds of stock in a small way and grow into a full farm supply than to make large purchases. The new breeds demand a little different care and treatment than is given the common scrub, consequently better results are had where the farmer herd or flock of improved animals.

The failure in stock business where improved animals are mainly handled can generally be traced to lack of knowledge how to manage the stock in order to bring them to a higher state of development on | coves and curtains should be avoided. In an economical basis. Extravagance in purchase prices often leads to extravaresulting in a cost of production greatly in

grow up with the business, learning economy and cost of production by years of experience and practical work with the in-

Correspondence National Stockman. If you have any bogs try a few acres of peas. I only sow two bushels to the acre as early as the weather will permit, then turn in as soon as they begin to get hard, which is about the 1st of August. The hogs should have free access to water close by them, They will take care of themselves and be ready for market before the rush of cornfed hogs comes on the market. After the hogs have taken care of the peas I burn the vines. Then the ground is in excellent con-

dition for a crop of wheet.

It has been proved by actual experiment that a layer of air lies against the walls which is subject to very little movement the middle of the room. It is, therefore, important that a bed should not be placed close to the wall. If kept there during the daytime it should be moved at least several mches out into the room at night. Alan alcove inclosed on three sides a lake of air forms, which may be compared to the stagnant pools often observed along the margins of rivers. A few yards away a rushing tide may be moving swiftly along, but these placid pools are unruffled by the
